TUESDAY, NOVEMBER 8, 1907

We have discovered that the people of this country, like the people of other countries, do not want war. It is the language used by the British Peace Commission, and the discovery meant that the sentiment had put to shame the culture and humanity of the past. It would be hailed everywhere with unalloyed delight. But war is the pleasure of nations—as combat is the practice of individuals—when the prey is of inferior strength, and to be peaceably disposed, we have ample basis for belief, in some occasions in the career of certain nations only the evidence of a raw pugnacity, of a secret consciousness of inferior strength. Of course, every peaceably disposed man will hope that there will soon come a day when nations will be like sisters in their regard for one another that war will be no more thought of in settling international questions than would club in the adjudication of a household dispute. A common tribunal of arbitration and justice, rather, like a common mother, shall hear the case, and award the injured their satisfaction. But, may we ask, is the gentle, the unselfish spirit so necessary to that condition of affairs present in national life to-day? Or is it not true, on the other hand, that the spirit which provokes war is terribly rampant. Of course we want and talk peace, but that there is a latent feeling of inherited ferocity in our natures is beyond question. How easy it is to set a whole nation on fire. One only needs to look back on such instances as that of the proposed return of the rebel battle flags, when the people of the United States, as if touched by an electric shock, jumped to the rescue of the proposed endangered trophies of war. Good speed to the work of the peace arbitrators—their work is a good one, but a mighty undertaking.

Few people appreciate the devotion of an independent, fearless journal to the best interests of the city or town in which it has its circulation. The relation partakes of many of the characteristics of that between wise parents and their children. While not at all times foolishly indulgent they see with rose-colored glasses all the best traits and signs of promise which to less tender eyes might be invisible. Claiming the prerogative born of family affection they also feel at liberty to point out mistakes and faults. Shortcomings are dwelt upon at length, deceit exposed, corruption in high places scored with all the scathing comments it deserves, loose methods of business, "crooked" dealing or weak dilly-dallying in matters of public concern condemned, politicians' tricks relentlessly shown up. But just let another town attack the city of their love, and like the parents, who, however clear headed and sharp-sighted where their children's interests are concerned, will brook no outside interference, they will spring forward to defend it. The family feeling, which allows plain talking and, even, when necessary, caustic criticism within its sacred circle, but will not permit unflattering speech from strangers, is strong and makes itself felt.

The Russian peasantry appear to be sunk in ignorance and superstition. During the recent eclipse of the sun, three famous Russian savants descended in a balloon at a village in the neighborhood of Moscow, whereupon the peasants rushed out of their houses, shouting, "Let us shoot these evil beasts that have darkened the sun." The savants were lucky to escape with their lives, but the balloon was destroyed, being regarded as an instrument of the devil. The eclipse threw the peasantry into paroxysms of terror and apprehension wherever it was visible.

The election in New York to-day creates considerable interest, inasmuch as the result will, it is believed, have great weight on the struggle next year for control of the Federal Government.

Elections Held in Eastern States To-day.

FINE WEATHER REPORTED

[PRESS DISPATCHES TO THE GAZETTE.]

Elections in the East To-day.

CHICAGO, Nov. 8.—Dispatches from all the Eastern States in which elections are being held to-day report bright, clear weather. In Maryland the election is proceeding quietly and the vote at 10 o'clock had been light. In New York business is entirely suspended. Crowds surround all the voting places in the city and a tremendous vote is being polled. The interest is centered in the fight between Fellows and Nicholl for the District Attorneyship, and betting this morning is lively. The odds range from five to four on Fellows to even. Reports from throughout the State indicate a large vote. In Ohio the weather is pleasant and the election is passing off quietly. A heavy vote was being polled at 9 o'clock. The same condition of affairs prevails in this city, with the exception of a drunken quarrel at the polls between James Haney and Pat Hogan, which resulted in the shooting and killing of Hogan.

WINCHESTER, Va., Nov. 8.—The indications are that this city will be close, with the chances in favor of the Democrats. The Republicans have carried it by a majority for several years.

CINCINNATI, Nov. 8.—The voting at 2 P. M. was quite heavy. The reports current for several days concerning the Labor party voting for Powell for Governor in return for Democratic votes for the Labor General Assembly candidates are being, to some extent, verified, and on this account the majority of 2,000 or 3,000 in the county. The Republicans concede that the Labor men are voting for Powell, but do not believe they are going to give him the county.

NOBLES, Va., Nov. 8.—The weather throughout the State is fine, and reports from all quarters state that a heavy vote is being polled, with both the Republicans and Democrats confident. Congressman George Bowden was arrested shortly after the polls opened while haranguing the colored voters, the Democratic Judge ruling that he was disturbing the peace. Another Republican politician was arrested for interfering with voters in one of the white wards. Both are released on their own recognizance to appear on Friday to answer to the charge.

NEW YORK, Nov. 8.—The Democrats now express confidence in getting a majority of from 6,000 to 8,000, while many Republicans concede the city by a smaller majority. So far the meager intelligence from counties indicate quiet elections.

BOSTON, Nov. 8.—The election is proceeding very quietly, although there is considerable suppressed excitement and many vigorous workers around the polls. Reports from various points in Massachusetts bring similar stories.

PHILADELPHIA, Nov. 8.—Up to 1 o'clock everything was quiet and a large vote is being polled. The excitement over the contest for Sheriff is intense.

DES MOINES, Iowa, Nov. 8.—The election is passing off very quietly, but with the unusual interest. At 1 P. M. about half of the whole vote had been polled.

The Doomed Anarchists.
 CHICAGO, Nov. 8.—John Brown, a son of the celebrated emancipator, sent eight boxes of grapes to each of the Anarchists, including Neeb, from John Brown's vineyard. They reached the jail this morning with a message stating that the sender was opposed to monopoly and tyranny of any sort. Another search of the cells this morning was made, the only result being the finding of a red cord three or four feet long in Ling's cell. The cord was long and strong enough to have permitted the use of it for strangling purposes.

The wives and friends of the doomed men were not admitted to the jail this morning, this being a holiday.

Great Excitement.
 SPRINGFIELD, Ill., Nov. 8.—Great excitement was occasioned here last night by the announcement that Assistant Adjutant General Evert had notified the two companies of the State militia belonging here to be in readiness to assemble for duty. Men in military uniforms were seen on the streets, but when questioned simply said they had been notified to be ready to respond to the signal. It is not known what the object of the order is, where the troops are to be sent. The belief is generally prevalent, however, that they are to be ordered to Chicago.

Today Will Tell the Tale.
 RICHMOND, Va., Nov. 8.—The very exciting political contest which has been going on in Virginia for the past few months will be closed to-day. The real contest is for 100 members of the House of Delegates and 19 State Senators. On the result will depend whether Democratic domination in the State shall be maintained or whether the combination of Reformers and Republicans shall come into power. The incoming Legislature will also elect a U. S. Senator to succeed Senator Riddleberger.

Democratic Clerks Gone Home to Vote.
 WASHINGTON, Nov. 7.—It is stated at the Treasury Department that all the Democratic clerks in that Department from the States of New York, Maryland and Virginia have gone home to vote at the elections to-morrow. Clerks of Republican proclivities seem to show little interest in the election.

Assistant Secretary Maynard, Solicitor McQue and Second Assistant Butler are among the prominent Treasury officials who have gone home to vote.

Thirty-Eight Tramps in Revolt.
 LANCASTER, Pa., Nov. 8.—Thirty-eight tramps confined in the County Work-house have for several days been in revolt and refused to break stone. Last night a number of them attempted to escape, when one was shot by a keeper—how badly has not been ascertained, as the tramps are in possession of the yard and threaten with violence any body who attempts to enter.

Another Immense American Bridge.
 Poughkeepsie, N. Y., Nov. 8.—The first truss of the great Poughkeepsie bridge across the Hudson river was finished and swung clear yesterday. It is 525 feet long between the centers of the towers, and is the largest and heaviest steel truss in the world. It rests on steel towers.

An Increase in Exports.
 BERLIN, Nov. 8.—The American Consulate here reports that the exports from this district during the past year increased \$10,000,000 in value over last year.

Fatal Accident.
 CORNHORST, O. Nov. 8.—The tunnel of the Dresden branch of the C. and O. railroad, 12 miles west of here, is reported to have caved in last night. Six men were killed and several wounded.

Must Suffer an Operation.
 BERLIN, Nov. 8.—Professor Bergmann will perform an operation on the throat of the Crown Prince. His physician has decided that such a step is necessary. The Emperor, though worried about the Crown Prince, is improving in health.

A Cold Blooded Murder.
 DUBLIN, Nov. 8.—A party disguised as moonlighters forced an entrance to a house near Tralee county, Ky., last night, and shot the owner named Quirke in the presence of his family.

The Czar's Movements.
 LONDON, Nov. 8.—The Czar and his family will leave Copenhagen on the 12th instant, on their return to St. Petersburg.

Another Dynamite Bomb Found.
 CHICAGO, Nov. 8.—A loaded dynamite bomb was found this morning on the West Side, near a polling place. The bomb was made out of gas pipe.

Public School Library.

The library of the Reno public schools yesterday received a valuable addition through the generosity of the Principal, Professor Orrin Rine, whose long connection with the schools has made him acquainted with the needs of his pupils from the youngest to the oldest. The addition consists of 21 well-chosen volumes, comprising selections from Scott's "Pictorial Lives," Goldsmith's "Rasselas" and others equally good—all affording a mine of pleasure and instruction for the young readers of the schools.

Poor Parky.

Says the Carson Tribune of yesterday: Since Thursday last the trees have been entirely denuded of leaves, and now grim Winter stares poor woodmen and florists mortals in the face, and the birds of the State Capital have departed.

THE WINNEMCCA FANDANGO.

The Dances Among the Indians—New a Squad of Bucks Awed Overland Passengers Yesterday.

A telegram from Winnemucca says: The Indians keep up their dances nightly, and while only young braves and squaw enter into the circle, the older ones seem to take a great interest in the affair. Captain John delivers temperance lectures and cautions his people against the use of firewater, yet he would be delighted to have an opportunity to get a drink, as would all the Indians, male and female, who attend the festivities. There are over five hundred men here to-night, mostly Putes, and their eastern neighbors, the Shoshones. Few reservation Indians attend.

Yesterday a squad of bucks enlivened the scene with a war dance. They were robust savages, wearing abbreviated garments. Their bodies and legs were painted in colors, black predominating, and their scalp-locks were adorned with feathers. Patches of rabbit fur were pasted on their breasts, and feathers were stuck in their mouths and noses. They appeared at the depot upon the arrival of the emigrant train, and simply awed the passengers. They sang their war-song, which sounded like the syllables Ka-la-ma-ya Ta-kan, interspersed with whoops, and as evidence they did not mean to kill and scalp, as the song indicated, carried the stars and stripes on a pole.

Owing to jealousies among the captains a large number of braves refused to parade, only the Naches faction participating. The rival factions manifest much ill-feeling toward each other and permit no speaker but Captain John, who is almost blind, to address them at the fandango grounds.

So far there has been one fight among them. But last evening an infuriated buck cut his squaw on the arm. He was promptly arrested by the officers and marched to jail out of a crowd of 200 or 300 Indians.

The opinion prevails among the whites that a few gallons of firewater would inaugurate a war which would cause the loss of many lives and the destruction of much property, as the redmen do not concede the right of the whites to interfere in matters which they think only concern the Indians. An Indian looks upon his squaw as his property, which he can use as he pleases.

These Indians do not get a dollar from the Government, yet all seem fat and sleek and comfortably clothed.

PERSONAL.

Irwin Ayres, the cattle man, is in town.

Mrs. Lou Stevenson will depart for Los Angeles Thursday evening, and will remain there for the Winter.

Ex-Senator Spencer, of Alabama, now in Austin, and Superintendent Slusher, of the Manhattan Co., were passengers for the Bay last Saturday night.

Surveyor General Irish left by private conveyance for Pyramid reservation to-day for the purpose of inspecting the recent survey made by Perry Powers and assistants.

Winnemucca Silver State: John Sparks, of the firm of Sparks & Thinn, who own thousands and tens of thousands of cattle in Eastern Nevada and Idaho, has purchased a ranch near Reno, and will remove his family to Reno.

Yesterday's Carson Tribune: Miss Mina Atchison, who has been on a visit to her mother in Carson for the past week, departed for Reno on last evening's passenger train, to resume her studies at Bishop Whitaker's School for Girls.

Cinderella.

Of this beautiful spectacular burlesque as performed by the American Juvenile Opera Company, that will appear at the Nevada Theater on the evenings of the 14th, 15th and 16th instants, the Napa Reporter of last Saturday says: "Those who attended the performance given by Church's Juvenile Opera Company at the opera house last night were well repaid. The young people who took the principal characters performed their parts admirably and some of them have excellent voices. Hattie Walte made a beautiful little Cinderella, being very graceful and singing well. Tommy Kearns, Cinderella's big sister, is a regular comedian, and kept the house in roars of laughter by his imitations of female mannerisms. Cinderella's pretty sister was indeed pretty, and the Prince and his attendant good actors. The policeman and the horse peddler were good. The quartet of singers and dancers deserve great credit."

The City Hotel Homelide. The hearing that was to have been given William F. Patten, the slayer of the Chinese cook at the City Hotel Sunday, before Justice Young this morning at 10 o'clock, was postponed until 1 o'clock this afternoon. The belief prevails that notwithstanding Patten was exonerated from all blame in the matter by the Coroner's jury yesterday, he will be bound over to await the action of a Grand Jury, yet persons who favor such action are free to confess that he cannot be convicted of murder.

LATER—At half past 3 o'clock the case against Patten was dismissed, Justice Young deciding that the homicide was justifiable.

Cattle.

Grayson, Owen & Co., of Oakland, Cal., purchased 60 head of beef cattle of Irwin Ayres this morning. The same firm bought 500 head of H. McCannagh's the other day. The price paid is said to have been five cents. Colonel Hardin will ship 10 car-loads to San Francisco this evening and E. W. Crum two car-loads to Sacramento.

Thousands Willingly Testify! That there is no use in being deceived by spurious goods or injured by quick medicines. That rheumatism, sciatica, lung trouble, kidney disease, dyspepsia, malaria, etc., can best be cured by external remedies. That the best external remedy is Allcock's Porous Plaster, the original and genuine article. That Allcock's Porous Plaster ought to be kept by all families. That they can be depended on every time.

TELEGRAPHIC BRIEVITIES.

—It is said that O'Brien and Mandeville have been put on bread and water as a punishment for refusing to wear the prison garb.

—Ireland lost a staunch friend yesterday by the death of Baron Wolverton at Brighton. He was one of Gladstone's closest friends.

—The New York Supreme Court yesterday decided that the United Labor, or Henry George party, is entitled to an inspector at each polling place. The claims of the Socialists and Irving Hall were rejected.

—The election to-day in Iowa is for Governor, Lieutenant Governor, Supreme Court Judge and Superintendent of Public Instruction; also for members of the General Assembly, who will vote for a United States Senator to succeed James E. Wilson.

—John Jamber, the Anarchist who was convicted in Milwaukee Saturday of attempting to kill ex-Mayor Secor, of Racine, with a dynamite bomb, attempted suicide yesterday afternoon by taking morphine. His condition was discovered in time to save his life.

—A report has been received in Washington that Professor Cushman, who has charge of the Government exploring expedition in Southern Arizona, has unearthed 2,000 skeletons. The location is about 80 miles northwest of Tucson, or near the junction of Salt river with the Gila.

At Fence.

A stomach in revolt is an odorous rebel. Corrected with Hostetter's Stomach Bitters, its dissonance with the food introduced into it in unwary moments of appetite ceases. Then it is at peace. Then dyspepsia abandons its grip. Then such fractious manifestations as heartburn, a sinking sensation in the pit of the stomach, belching, flatulence, acid eructations, biliousness, etc., cease to inflict martyrdom. After a course of the national tonic and alterative, the liver and bowels, always more or less disordered during a prolonged attack of indigestion, resume their functions and become regular. Thus not only dyspepsia, but its concomitants, constipation and biliousness, are conquered by the medicine, which remedies their fruitful cause, weakness of the organs of digestion. The epigastric nerve, cellular tissue, in short, every organ that bears a part in the digestive processes, acquires vigor and regularity from the benign invigorant.

A Boon for Travelers. A traveler who guards against sudden attacks of cold, headache, indigestion, etc., ailments not infrequently brought on by changes of climate and water, is the sensible, far-seeing man. Always have handy in your valise or trunk a box of Allcock's Porous Plaster. Worn on the pit of the stomach, they will so strengthen the digestive organs that you can eat almost anything, and travel without fear of taking cold.

A Luxury and Necessity. For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of Figs. 50c. and \$1 bottles for sale by Wm. Pluniger, Reno, Nevada.
